

WuYa Innovation

- Domain: Subjective evaluation
- Knowledge: Frontier surfaces
- Signal: Editor feedback

1. Feedback Collection

Input Sources

- Editor feedback text
- Reviewer comments
- Acceptance/rejection decision
- Post-review correspondence

Feedback Data

2. Reflection Generation

Linguistic Reflection

```
{
  "journal": "Nature ML",
  "pattern": {
    "dimension": "innovation",
    "preference": "paradigm shifts",
    "evidence": [...],
    "confidence": 0.82
  }
}
```

Reflections

Inspired by

Reflexion
(Shinn et al., 2023)

3. Pattern Generalization

Clustering & Abstraction

- Group similar patterns
- Abstract higher-level principles
- Validate against canonical texts

New Feedback

Generalized Patterns

4. Library Update

Frontier Surface Library

```
{
  "journal_id": "Nature ML",
  "frontier_surface": {
    "description": "...",
    "patterns": [...],
    "updated_at": "2026-05-26"
  }
}
```

Updated Library

Inspired by

Voyager
(Wang et al., 2023)

5. Application

Future Evaluations

- Personalized recommendations
- Weighted dimension scoring
- Updated DEA frontiers
